

# Paper Template for COMP30027 Report

Anonymous

## 1 Introduction

This is a report template, suitable for L<sup>A</sup>T<sub>E</sub>X. Don't use fonts smaller than this one (11pt). Don't include a title page, table of contents, abstract, or other similar front matter.

**Please don't include your name and/or student ID in the title or header; your report should be anonymised for the reviewing process..**

## 2 Methodology

You can cite related papers or books like this (Bishop and Nasrabadi, 2006). Text<sup>1</sup> with footnotes at bottom of page.

### 2.1 Subsection

Use **bold** for **emphasis**, but use sparingly.

Short quotations “*are included in the main text, in normal paragraph style, between double quotes and italicized*” All quotes should be properly referenced. Note that the citation style is defined in the accompanying style file; it is similar to AAAI house style. But you may use other (formal) citation styles if you prefer.

#### 2.1.1 Subsubsection

Figures should be placed in the text, not at the end. Figures must be captioned and explicitly mentioned in the text (Figure 1).

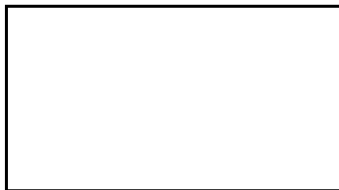

Figure 1: Figure captions should appear below the image

Text of the subsubsection. Text of the subsubsection. Text of the subsubsection. Text of

the subsubsection. Text of the subsubsection. Text of the subsubsection. Text of the subsubsection.

## 3 Results

Tables also need to be captioned and explicitly mentioned in the text (see Table 1). If you don't want the text in your tables to be counted in your word count, you can add your tables as pictures.

Document	Features
AAA	text
BBB	text
CCC	text
	text

Table 1: The caption of the table

Filling text; filling text. Filling text; filling text. Filling text; filling text. Filling text; filling text. Filling text; filling text. Filling text; filling text. Filling text; filling text.

## 4 Discussion & Critical Analysis

Please proofread your report (more than once) before submission. Many grammar and spelling error would impact the quality of your report (and your mark for this criteria)

## 5 Conclusion

Concluding text.
